General Updates

Valentine's Day Boxes: Valentine's Day will be here before we know it. I am asking that the Valentine Boxes are created at home and covered with things that your child loves. Families in the past have used paper bags, shoe boxes, paper grocery bags, or purchased a box from Michael's or similar store. We will do a Valentine's exchange. Your child can make his/her Valentines or purchase them. Dollar Tree is a great place to buy these.

mClass Assessments: We have started our mClass reading assessments. This time, another teacher will assess your child's reading level. As a grade level, we check in to see if the oral comprehension responses match up with grade level expectations. Remember that the writing component is given, but not used when deciding the instructional reading level.

Math: As you are driving or hanging around the house, please try to 'quiz' your kiddo on identifying a number that is 10 more or less. This should be automatic and NOT be done by counting up on their fingers one-by-one.

Digital Winter Math Challenge: If you kiddo loves technology, try to encourage at least 10 minutes a day playing some of these amazing math games.

Academic Highlights

Reading

Readers can identify story elements within a fairy tail (characters, setting, events, and the lesson taught).

Writing

Writers study fairy tails in order to write their own.

Math

We can add and subtract two-digit numbers and show our thinking using math tools (number lines, drawings of cubes, counters, Base 10, ten frames, part-part-whole mats).

Science or Social Studies

I can study maps.

I can study weather.
